For North Carolina.—Partly cloudy; Sunday and Monday; light to fresh southerly winds.

A Philadelphia man is suing his wife for divorce because she threw dough in his face when he refused to give her $20 to buy a new hat. The whole trouble seems to have been about dough.

In New York a few days ago a lot at the corner of Broadway and Wall Street sold for $700,000 or $4 a square inch, which is believed to be the highest price ever paid for real estate in the world's history.

Johann Hoch, the Chicago Bluebeard, sentenced to be hung for murdering one of his wives, says he intends to die like a gentleman. No doubt the sheriff will see that Johann's necktie will be properly knotted for the occasion.

Ella Wheeler Wilcox says: "Every man ought to be cautious even in his most unimportant undertaking." We refuse to allow any married man to butt in here to apply this advice to a man who is undertaking the responsibiltiy of getting a June bride.

The Richmond Times-Dispatch sounds this note of alarm: "If it shall be demonstrated that a constructive foreign fleet can silence Fort Monroe and hold Norfolk, Washington, Baltimore and Richmond at its mercy, the facts should not be cabled abroad."

The cold nights we are having in June is playing havoc with the cotton crop, and its effect is worse than the ravages of the boll weevil. People are sleeping under blankets every night. But think of five inches of snow in the White Mountains, New Hampshire, last Thursday.

When the whale did everything possible to be done in three days and three nights to digest Jonah the big fish had the sense to throw him up as a tough proposition. Surely Russia will not go against the precedent established by the whale and lose this oportunity which President Roosevelt offers her to get rid of the little Jap.

## BOLD HIGHWAYMEN

Wilmington Man Relieved of Money Which He Had to Pay Hands

## JUST NORTH OF OAKDALE

Mr. John Milliken Set Upon by Three Negro Desperadoes and Relieved of Over $100 and Valuable Papers.

A daring highway robbery, in broad open daylight, was perpetrated by three unknown negroes upon Mr. John Milliken, No. 213 Brunswick street, this city, about two miles from Wilmington, at 3 o'clock yesterday afternoon. Mr. Milliken was relieved of $103 in ... and a number of valuables which he carried in his ... so close to the high... in the direction ... ediately after the ... not been heard of ...

Mr. Milliken is engaged in having wood and timber cut on Smith's Creek, which he brings down to the city on flats, disposing of it here. Yesterday morning he brought down a flat load of wood, secured the money for it and with other money he had, returned to the woods to pay off his hands. He had gone to where the men were employed, but in the meantime they had stopped work and returned to the city by another route from that which Mr. Milliken had taken. Mr. Milliken started back to town to see the hands and pay them off in the city. When about 200 yards from where the trestle of the Newbern railroad spans Burnt Mill Creek swamp, in an old field over which the undergrowth is dense, he saw before him, seated on a narrow country road along which he was passing, three young negroes, evidently resting. The white man had no suspicion of robbery, but as he was nearly opposite the negroes, two of them sprang at his throat, choking him almost into insensibility while the third held a revolver in his face, going through his pockets with the other hand. Mr. Milliken had no weapon to defend himself and was powerless in the hands of the ruffians. When they had robbed him of the money and everything else of value in his pockets, the negroes insolently told him to go on about his business, while they walked off in the bushes parallel with the railroad track, in the direction of Scott's Hill.

Mr. Milliken did not recognize any of the negroes, but would know them if he should see them again. They are described as being from 22 to 25 years of age; two of them black and one dark brown; all of medium size.

Mr. Milliken returned to the city as quickly as possible and reported the matter to the police station, but nothing could be done to overtake the negroes. The scene of the robbery is just north of Oakdale cemetery and a considerable distance from any place of habitation. Mr. Milliken was roughly handled about the throat by the negroes, but otherwise he was uninjured. Had he offered resistance, he is certain that the negroes would have dealt with him foully.

## THE HOTEL TARRYMORE

Brilliant Opening Last Night—Sumptuous Supper and a Magnificent Ball—Concerts To-Day.

The formal opening at the new and handsome Tarrymoore Hotel, on Wrightsville Beach, last night is described as having been one of the most brilliant affairs ever witnessed at Carolina's favorite resort. The opening was attended by more than 300 persons, who were delighted with the new hotel and its splendid appointments. There were more than a hundred registrations at the hotel and the supper served as one of the features is spoken of as having been elegant and sumptuous. The cuisine department is in charge of Mrs. W. E. Mayo and that is equivalent to saying that it is up-to-date in every respect.

The crowning event of the opening was a brilliant inaugural ball in which hundreds of young people from the city, the beach, the sound and from a distance, took part. The ball room beautifully decorated with flags of nations, kindly loaned by Capt. C. Maffitt, while a large center piece, commanding first view from the entrance, bade a hearty welcome to all. The lighting in the ball room was hundreds of electrics and the scene of the dance was one which will have done splendid credit to larger resorts North. The orchestra is a splendid one, and the dancers took great delight in commending it to their friends last night. Extra cars were run to and from the beach to accommodate the large crowds which attended the opening at the Tarrymoore.

Mr. Moore, the proprietor of the hotel, is to be congratulated upon the admirable way in which his splendid hostelry has opened this season. Guests are rapidly arriving and by the end of the present week, the hotel is expected to be comfortably filled.

The orchestra will give two concerts to-day; the first from 8 to 10, and the afternoon concert from 4 to 6 o'clock.

### PRETTY RESIDENCE SECTION.

O. A. N. Grounds Being Developed by Mr. Thos. P. Bagley.

The deed of transfer from Saint James' Vestry conveying to Mr. Thos. P. Bagley, for $12,000, the block of city property known as the "O. A. N. grounds," was filed for record yesterday. In this connection it will be of interest to know that the property has been divided into spacious building lots and that the grounds will be at once developed into a first-class residence section. A number of the lots have already been sold and others are expected to go in a hurry. Each of the purchasers will erect a handsome new residence for immediate occupancy.

Fronting Orange street, lot of 44¼-110 feet in size have been sold to Messrs. J. Wallace Carmichael, Cameron F. MacRae, C. H. Fore, C. E. Taylor, Jr., Will Struthers and Samuel R. Adams.

Fronting Eighth street, lot of 40x 150 feet in size, have been sold to Capt. John Walker, Mr. John Quince Myers and Mr. W. G. Sale.

Fronting Ann street, 41 1-4x110 feet in size, lots have been sold to Messrs. S. S. Drew, Philip Heinsberger, Jr., and G. C. Bordeaux. On Ninth street, a number of lots have also been disposed of, one of them to Mr. J. W. Scott. Each lot has a driveway privilege adjoining and the section promises to be one of the prettiest for residences in the city.

### BIG I. O. O. F. EXCURSION.

Hanover Lodge Preparing for Enjoyable Event on Thursday.

Hanover Lodge of Odd Fellows is preparing to run its annual excursion on the steamer Wilmington to Carolina Beach on Thursday of this week, and a delightful affair it promises to be. Mr. C. F. Williams is chairman of the committee of arrangements which has secured four trips of the steamer during the day and at night. The schedule of the boat for the day is given in the advertisement in to-day's Star. On the evening trip, leaving the city at 7:45 P. M. there will be the added feature of a moonlight ride and an exhibition of the mammoth search light recently installed on the steamer. There will be music and dancing in the pavilion at the beach until 11 o'clock at night, when the last train will leave. The ladies of Letitia Lodge, Daughters of Rebekah will serve refreshments on the boat and at the beach.

—The Star is asked by several to call especial attention to the pernicious habit of riding bicycles on the sidewalks along upper Market street on Sunday afternoons. The police have been asked to look into the matter and some arrests are expected to follow to-day.

## IN QUEST OF A PHYSICIAN

Child Brought to City for Medical Attention Expired Suddenly Before Desired Assistance Could Be Reached.

Being a comparative stranger in the city and walking the streets in a vain endeavor to find the office of a physician, Mrs. John P. Before the parents could reach the Fulton House, however, the child died in its mother's arms.

Distressed beyond the power of words to tell, the grief-stricken mother bore the lifeless form of her little one one to the hotel and there sympathetic friends tried to comfort and console her. Undertaker W. E. The funeral will be held at the cemetery.

Monarchs Still Champions of the Field—Y. M. C. A. Takes Second Place in Percentage Column.

Doubleheaders were again played by the four teams in the Junior Baseball League yesterday afternoon, the Monarchs having taken both games from the S. S. R.'s at Seventeenth and Market streets retaining their percentage of 1,000, and the Y. M. C. A. and Market Street Giants having split even on the games at Seaside Park. The Monarchs won from the S. S. R. team in scores of 18 to 11 and 10 to 4 while the Y. M. C. A. took the first game from the Mark... ... and the class of ... really better than ... scores indicate.

Mr. L. Poisson umpired the game while Mr. C. Bellamy was the official scorer. Sallings and Brinkley were the pitchers for the first game; Alderman and Brittain for the second, while both games were caught by Bulluck and Moore for their respective teams.

The games at Seaside Park were lively and the spectators numbered many lady friends of the respective teams. Interest in the league series is growing apace and ere long the snappy little teams hope to be able to merit the patronage of the public in the way of paid admissions.

## FUTURE OF THE PEANUT.

Eastern North Carolina is the home of the peanut and they are the best in the market after they have gone through the peanut factory and put up under the Virginia brands. Everything about the peanut is interesting in this region, and so will be this felicitous editorial which we scissor from the Washington Post:

"Americans who follow with solicitude the conquests of our commerce in foreign fields will note with a thrill of joy the news that the American peanut is about to invade Europe, and that this important development is under the guiding genius of the Hon. Robert P. Skinner, consul general at Marseilles. It is a happy coincidence that the peanut has found such a champion, and that Mr. Skinner has discovered such a potential weapon for the commercial conquest of Europe. Mr. Skinner's fame was placed on indestructible foundations when he secured from Menelik II a treaty which enables the United States to share with the most favored nations the priceless prospective commerce of Abyssinia. Since Mr. Skinner's historic caravan carried pomp and pageantry through the desert between Harar and Addis Abeba the chancelleries of Europe have been in poignant apprehension of further onslaughts. And they were not mistaken.

"The report just submitted by Mr. Skinner to the Department of State, and published by the Department of Commerce and Labor, leaves nothing further to be said regarding the peanut. It is picked with historical, geographical, commercial, and statistical information, and displays prodigious labor and research. Mr. Skinner goes to the very kernel of the peanut problem and strips away every husk enveloping his obscure subject. His report may be compared with the peanut itself—it is meaty, nutritions, delicately flavored, and intellectually stimulating.

"Sweeping over the European field with an eagle's glance, Mr. Skinner points out that the East Indian peanut is inferior as to oil-bearing qualities, while the African nuts furnish the edible grades in high repute in Europe, where the American nut is as yet unknown. He intimates that when the American peanut appears, the African nut will promptly succumb. Our commercial sentinel at Marseilles proves his militant patriotism in the remark that the American peanut is 'perhaps the best in the world.' He should have omitted that 'perhaps.' He speaks of correspondence with the Department of Agriculture looking to the improvement of the American peanut in oil-bearing properties, which would 'make possible a new oil-crushing industry in the United States only less important than the cotton-seed oil industry of to-day.'

"Mr. Skinner calls attention to the fact that in Europe it has long been regarded as strange that Americans make so little of the peanut. This illustrates the density of European ignorance regarding American affairs, for in another place in his admirable monograph Mr. Skinner admits that 'thus far our crop has never been large enough to enable our exporters to share in the business in an important way.' In other words, the American peanut is absolute master of the American market, with the demand so great that exporters cannot get hold of enough peanuts to make any impression abroad.

In this suggestion lies the kernel of the peanut problem. If the increasing acreage of peanuts cannot supply the home market, how can we spare any for Europe? Surely, Mr. Skinner would not have any American stint himself in order to accommodate foreigners? Does he think the domestic demand will fall off? If he does, we think he is mistaken. Evidently, then, with his gift of prescience in commercial matters, he expects peanut growers in the United States to redouble their energies and their acreage in the effort to keep up with the ever-growing home appetite and to enter the fallow European market. It is this news, foretold by Consul General Skinner, which will bring such pride to the bosom of every patriotic American. Not until the American peanut, carried in American ships, makes its triumphant way across the Atlantic will the commercial conquest of Europe be complete."

## PRESIDENT ROOSEVELT AS PEACEMAKER.

Some newspapers have criticised President Roosevelt for presumptiveness in undertaking to secure peace in the Far East instead of leaving the initiative to some European power more directly interested. We couldn't see where any harm could be done except through some act of impropriety in attempting to do the right thing in behalf of humanity, but it seems that the President has been equal to the delicate situation.

The newspapers have butted in as naval and military critics all along and we looked on it as so American in President Roosevelt to wade in and do something while the European powers are gumshoeing around. The principal difficulty which the President faced in making his peace overtures was the possibility of failing to make the initiative in a delicate, diplomatic way that would give no cause of offense to either belligerent. The President seems to have done the act with such propriety that Japan has officially announced her acquiescesence in Mr. Roosevelt's proposition and will appoint delegates to a peace conference. The Star's cablegrams and Washington dispatches this morning announce the success of the President's identical "peace feeler" to Russia and Japan, and if the warring powers can get together on any basis that will stop the appalling slaughter in the most terrible war in history, all humanity will give him the praise.

Russia doubtless accepts President Roosevelt's peace proposition in the spirit in which it was tendered. If President Roosevelt said to Count Cassini what the press dispatches report him as saying a few days ago when he had a conference with the distinguished ambassador about peace, Russia would have cause to be offended at any such bruskness, but we never had any idea that the President could act in a manner so undiplomatic as to start in as peace maker by telling Russia that she had been licked and might as well call for the calf rope. That would sound too much like Col. Roosevelt with his khaki suit on and not President Roosevelt receiving a foreign power's ambassador at the White House.

If peace can be brought about through the instrumentality of the Washington government, it will be a credit to the great American Republic. The people of our country and the nations of the world will give President Roosevelt the honor.

## MOORE'S CREEK BATTLE GROUND.

We are glad to note that Pender county is interested in preserving that historic spot, Moore's Crek battle ground, sixteen miles from Wilmington, on the Yadkin branch of the Atlantic Coast Line between Wilmington and Fayetteville. The Pender Chroniele announces that the contract has been let for a steel bridge over Moore's Creek right at the battle ground.

It was at Moore's Creek that the first signal victory of the revolution was won by the patriot forces. The outlines of the fortifications used by the Americans are still distinct but, if some effort is not made to preserve them, the last trace will disappear in a few years. We hope our Pender friends will be able to get an appropriation from Congress this session in order to establish a park at the battle ground and assist in preserving the historic spot.

—Charles the Twelfth, of Sweden, lost his life before an obscure fortress in the war for the conquest of Norway, and now Norway separates from Sweden without the cost of a drop of blood. Who will pretend that the world is not moving upward and outward from its old sanguinary ruts, notwithstanding that the bloodiest war in history is not yet ended?—Philadelphia Record.

—A local fire insurance company has been organized and it ought to prove a success. Thousands of dollars are spent in this State yearly for fire insurance and most of the money paid in premiums goes to other States. With good, sound management there is no reason why home insurance companies should not be just as safe and reliable as any others, and if such concerns are patronized a great sum of money would remain in the State and be invested in it.—Columbia Record.

—President Roosevelt has a wonderful memory. It is said he never forgets who his Cabinet officers are or what portfolios they hold.—Charleston News and Courier.

—With the exclusion of foreign vessels from the Philippines none of the big fleet of vessels which go out from England with merchandise for the Far East, and after discharging come across the Pacific to load back for the Orient, will be permitted to bring freight from the Philippines. As a result of this embargo we must pay more for the outward freight to make up for the cost of the ballast trip across the Pacific, and on account of the lack of competition everything we import from the Philippines will be subject to a higher freight rate than could have been maintained had we left the business open to competition.—Portland Oregonian.

## TWINKLINGS.

—As to the secret of success, it may be said that nothing has ever been more extensively advertised.—Puck.

—Lawyer—So you married in haste and repented in leisure? Lady Client—No, sir! I married at leisure and repented in haste.—Detroit Free Press.

—Nothing to Long For.—"What a discontented, dissatisfied look Mrs. Fullerton has!" "Well, what could you expect? She has a husband who gets her everything she wants."—Town Topics.

—Slow in One Way—Hicks—I never say anyone as slow as that fellow Rakeley is. Wicks—Slow? Why, the man is positively fast. Hicks—But see how long it takes him to sow his wild oats.—Philadelphia Ledger.

—Endless Chain—"A soft answer," remarked the party of the first part, "turneth away wrath." "True enough," responded the party of the second part, "but wrath also turneth away a soft answer."—Louisville Courier-Journal.

—The Difference.—"Ah!" said the man who was given to moralizing. "Death comes alike to the rich man and the poor man." "Except," replied the observant man, "that in the former case it is usually accompanied by reporters."—Philadelphia Press.

—Motor Cyclist—I see that Muggins has named his automobile after his wife. Isn't that a queer proceeding? Bicyclist—Not at all. He didn't name his machine until he discovered he couldn't control it. I think the name very appropriate.—Albany Journal.

—"Are you going to Europe this summer?" "I don't know," answered Mr. Cumrox. "Going to Europe isn't what it used to be, you know. When a man travels now a lot of people turn up their noses and wonder whether a grand jury is after him."—Boston Transcript.

—De Long—I say, old man, when are you going to pay back the ten I let you have six months ago? Shortwad—Oh, in a few days. I would have paid it back long ago, only I was afraid of hurting your feelings. De Long—In what way? Shortwad—I didn't want you to think I though you needed the money.—Chicago News.

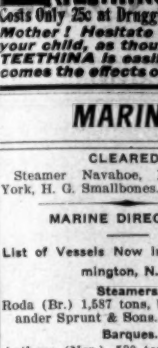
Girdles, Belts and Beads.

Girdles, belts and sashes claim their share of importance among minor dress items, says the Designer. There are the wide crush girdles of silk, with immense buckles of Parisian stamp and belts of fancy leather in all colors. Patent leather belts in black, narrow in the back and broadening to girdle shape in front, are the latest imported novelty and are considered the height of elegance for shirt waist suits. The corselet belts, fastened with jeweled buttons, are greatly favored. In place of buttons some have black velvet covered buckles, which are immensely effective on light backgrounds.



BELT BUCKLE WITH DROP ENDS.

All silver girdles are in new devices, with medallion backs and twisted ropes, which knot in front and are finished with large tassels. Buckles of wrought silver also have pendent chains and tassels, and a very exclusive style has the watch fob joined to the buckle by link chains. A pretty girdle is formed of chains connecting silver rings, run with ribbon.

The passion for chains, strings of beads, odd amulets and barbaric ornaments is increasing. An antique jewel, a Hindoo love charm, an Egyptian necklace or a bracelet from the south sea islands is highly valued.

The Hill of the Cellar Door.

I know a hill not far away
Where children always love to play;
The hill is straight and smooth and low;
For little folks 'tis better so.

The coasting there is very nice,
Without the cold of snow and ice;
You slide in summer, fall or spring,
But need not bother sleds to bring.

It is the safest hill I've found;
Sometimes you tumble to the ground,
But 'tis not far you have to fall
And would not hurt a child at all.

It's very near your home, and so
Your mother'll always let you go,
For then she knows you're right near by,
And she can hear you if you cry.

So up you scramble, down you slide,
And, oh, you have a jolly ride!
You always want to play some more
Upon the hill of Cellar Door.

—Annie Willis McCullough.

Between Masculine Friends.

"Did you go to the masquerade?"

"Yes."

"What as?"

"As a gentleman."

"How did you disguise yourself?"

—Chicago Post.

But They're Hard to Cut.

A writer in Country Gentleman in reference to green bone says: "We prefer the ribs of beef, chopped in two inch pieces and packed in the feeder nicely. It takes but a few minutes of hand labor to reduce them to the proper size and condition for feeding, so perfectly are the cutting knives adjusted."

Huge Task.

It was a hugh task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach, Guaranteed by R. R. Bellamy, druggist; price 50c. ••

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c. at R. R. Bellamy's drug store. ••

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### SPIRITS TURPENTINE.

—At Laurinburg the Superior Court completed its work on Friday. John McNair, colored, convicted of murder in the second degree for killing Henry Fairly, colored, was sentenced to the penitentiary for 12 years.

—A petition is being circulated in Stokes county asking Gocernor Glenn to change the death sentence of J. W. Hammons from death to life imprisonment. The condemned man, who was convicted at Winston-Salem last week of killing his wife, is a native and for many years was a resident of Stokes county.

—Capt. James T. Bradley, of Wadesboro died Thursday night. He was 70 years of age on the 31st of last May. Capt. Bradley was an officer in the Thirty-first North Carolina Regiment, at the head of a company known as the "O. K. Boys." He fought gallantly and was imprisoned in Fort Delaware for more than a year.

—It was reported at Mount Olive on Friday, that a convict was killed Thursday at Bowdens' a small town several miles below Mount Olive. A gang of convicts are at work there on a lumber road, and when one of them was attemtping to escape, he was filled with buckshot by one of the guards. The convict was a negro, and died instantly.

—A large bald eagle was killed near Roaring Gap, Wilkes county, a few days ago. It measured six feet and six inches from tip to tip and its head was perfectly white. The eagle had killed a Pekin duck, which was feeding near a branch, and this attracted the attention of Mr. Sherman McCann, who got his rifle, and shot the king of birds.

—Elections have been called at Point Caswell and Atkinson in Pender county to vote on a local tax for schools. The Pender Chronicle says: "From information the Chronicle has received regarding these districts there seems to be no doubt about the tax being voted and the establishment of these two districts. This is but the beginning, and it will not be long before every school district in the county will be a special tax district."

—Raleigh News and Observer, June 10: H. F. Seawell, of Carthage, special master in the noted case of Atlantic Seaboard & Guaranty, Trust & Safe Deposit Company vs. The Carolina Northern Railroad Company, for the foreclosure of mortgage, filed his report to-day with Judge Purnell in the Federal Court. It shows $498,500 in bonds outstanding, $42,000 in receiver's certificates, $3,000 in preferred claims and $10,000 in unpreferred claims.

—Charlotte Observer: The Oliver Company, a well-known construction concern at Knoxville, Tenn., has made arrangements with Mr. Frank McM. Sawyer, of this city, to manufacture tile roofing by the method recently invented by Mr. Sawyer. This factory will have a capacity of 40 tons daily. This is the third establishment for the making of this new roofing tile, the others being at Raleigh and Oxford, and still another one is assured for Meridian, Miss.

—The Carolina Casket Company, of Edkin. was chartered at Raleigh on Friday in the office of the Secretary of State with a capital of $8,000. The incorporators are: C. T. Bailey, W. F. Weir, G. L. Baily and L. W. Weir. The object of the incorporation is to manufacture coffins, caskets and furniture. The name of the Hall and Livermore Lumber Company," of Red Springs, was changed to the Brown-Shaw Lumber Company, and the location of the principal office was changed from Red Springs to Pembroke.

—A dispatch from Snow Hill on Friday says: A. R. Cash, a young white man, is in jail here awaiting trial for committing rape on Miss Rosa Byrd, a daughter of of John Byrd, last Saturday afternoon near Lizie, N. C. Cash had taken the young lady to ride, and while driving through a stretch of woods, alighted, and carried her into the woods, where the crime was accomplished. He was arrested and placed in jail and the preliminary hearing was to have been held last Monday, but the condition of the girl was so serious that the trial was postponed.

—A dispatch from Madison, on Friday says: Just across the river from Lynchburg the body of a young man has been found, apparently between 27 and 30 years of age, with bullet wounds in his mouth, a revolver lying at his feet. His features indicated that he was a German, and his face was clean shaven, and his clothes new. On his collar was "S. N. M.," and on his left arm was tatooed an anvil, sledge, horse-shoe and a blacksmith's implement. The only thing found in the suicide's pockets was a card upon which was written: "Good-by, My Dear Milly, Pittsburg, Pa." On his coat was the badge of the Order of the Eagles. The remains have not been identified, and unless claimed, will be buried at the expense of the county.

—Raleigh correspondence, Charlotte Observer, June 10th: J. L. Casper, who conducts a distillery at Winston-Salem, was here to-day with his counsel, Louis Swink, for a special hearing in chambers before Jundge Purnell in the Federal Court regarding the seizure some weeks ago of 101 cases of whiskey, the company had shipped to the Wilson dispensary. The seizure was because the bottled whiskey was in cases and then packed in hogsheads, as the manufacturers say, to prevent the case being opened and the bottles stolen during shipment. They now have a ruling from Commissioner of Internal Revenue Yerkes at Washington to the effect that this was really no violation ot the internal revenue laws, all things else being regular about the shipment. Since the whiskey was seized about thirty-six cases of the whiskey have disappeared, the principal "leakage" having been while the cases were being shipped from Winston to Raleigh for storage pending the settlement of the government's claim.

—John Sowers, familiarly known here as "Sunday" Sowers, was tried before Justice J. P. Burke Wednesday for burning three stacks of hay that belonged to Mr. E. P. Holland, who lives in Bethany township. The hay was burned on the first of May. Justice Burke asked John before the trial came off if he set fire to the hay. John said he did, that he would own up like a gentleman; and when he was questioned further as to why he did it he said that Mr. Holland had promised him one of his daughters, and she got married; then he promised him another daughter but would not let him have her, "and you know that'll put the devil in a man," said John. Even so. But Sowers would have escaped without falling into the hands of the law had it not been for some threats he is said to have made, for Mr. Holland was loath to presecute him. Some one told Sowers that he would be tried at the May term of court and be sent to the chain-gang, but as no contingency arose John allowed, after court adjourned, that he would burn something else for Mr. Holland. At least that was noised abroad, whereupon Mr. Holland appealed to the strong arm of the law. Two witnesses were put up to prove that these threats had been made, and John was sent to jail in default of the $500 bond required. John is a half-witted fellow who is commonly harmless enough, but it is thought his obsession in this instance might lead him to do Mr. Holland some hurt.

## IT'S YOUR KIDNEYS

**Don't Mistake the Cause of Your Troubles—A Wilmington Citizen Shows How to Cure Them.**

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary troubles sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Wilmington people testify to permanent cures.

E. Poezolt, merchant tailor, of No. 8 South Front street, residing at 315 North Sixth street, says: "My wife used Doan's Kidney Pills and in her case they proved to be an effective remedy. She suffered with her ankles and could scarcely get down stairs in the morning. We thought it was rheumatism and her ankles would be all puffed up every morning so she could hardly bobble around. Since obtaining Doan's Kidney Pills at R. R. Bellamy's drug store and taking them she seems like another person. She is better in the morning, the swelling left her ankle and from the great relief she obtained we are only too glad to recommend Doan's Kidney Pills to others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buaffio, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. ••

## MIMIC NAVAL BATTLE TO COMMENCE TO-NIGHT

**Admiral Dickins With Sixteen War Ships Will Begin Operations Against Washington and Baltimore.**

By Wire to The Morning Star.

Fort Monroe, Va., June 10.—Admiral Dickens, United States navy command ing sixteen warships, today held his last communication with shore preparatory to the joint exercises of the army and navy. His ships now constitute a hostile fleet which will begin operations at 12 o'clock tomorrow night against the defnses guarding the water approaches to Washington and Baltimore. These defenses are Fort Monroe, at Old Point Comfort, Forts Washington and Hunt, guarding the Potomac river, and the immediate approach to the national capitol, and forts McHenry and Howard, defending Baltimore. All of them are manned and equipped to their full capacity.

In all, fifty-one companies of coast artillery, nearly half of this branch of the army, are on guard. Major General Wade, U. S. A., commanding the Department of the Atlantic, commands the defense. He arrived at Fort Monroe today from Governor's Island New York. Weeks have been in special drills and the preparations of the defense is complete.

In working out the exercises the conditions of actual war are not to be followed. Three principal exercises constitute the work at each defense. These are, artiliery practice in daylight, the ships constituting the targets of the forts, practice with the searchlights at night and the operation of the mine fields in which the navy will endeavor to locate and destroy the mines. When the artillery practice is on, the mines are disregarded. This also is the case during the searchlight work. None of the big guns will be trained on the target but a blank charge in a one-pounder is fired to indicate the larger shot.

Just where ..dmiral Dickins will begin his work, whether he will sail from his recent anchorage off Annapolis direct to sea and return to the Virginia Capes tomorrow night and work out the problems at Fort Monroe or whether he will divide his fleet and begin at all points at once is not revealed. The army is content to say that all the defenses are prepared and that an ever-watchful-eye will be kept from all points from midnight on June 11 to noon on June 17 when the exercises will end.

The naval militia of the District of Columbia an of Maryland will be a part of the force under Admiral Dickens.

### THE EQUITABLE COMPANY.

By Wire to The Morning Star.

New York, June 10.—The installation of Paul Morton, Secretary of the Navy, as head of the Equitable Life Assurance Society, was auspiciously attended today by the prompt acceptances, as members of the new board of trustees of the Hyde estate stock, of former President Grover Cleveland and George Westinghouse, Justice Morgan J. O'Brien, the third member of the board, having already accepted. Mr. Morton also received assurances of full approval of his selection as chairman of the board of directors from August Belmont and Brayton Ives, the latter of whom, after resigning from the board wrote to Mr. Morton to explain his action, and tender the assurance of his best wishes for his success.

Moore and Leslie Yates who were a few months ago appointed committing magistrates at the Central station by Mayor Weaver to succeed Magistrates Cunningham and Kochersperger, were to-day removed from those positions by the Mayor. Magistrate William E. Isenbrow succeeds Moore, and Magistrate Yates' place was filled by Magistrate Kochersperger, formely a committing magistrate. Magistrate Moore and Yates were strong organization men.

It is reported that other arrests are to follow that of John A. Acker, the deposed storekeeper of the water bureau, who is charged with defrauding the city.

### MURDER MYSTERY SOLVED.

**Suicide of Two Men Who Strangled a Girl.**

By Wire to The Morning Star.

Wheeling, W. Va., June 10.—The mystery of the murder of Huida Schubert on March 22nd last, has been cleared through affidavits secured by Chief of Police William M. Clemens. The two men who were responsible for her death have committed suicide according to the story told by the wife of one of them. A four days' search for the missing Schubert girl resulted in the finding of her body hidden by brush in a gully on Chapline Hill. Her rings, watch and money were missing, and finger marks on her neck indicated that she had been strangled. A month after the murder, Bradford Powell, alias Dawson, shot himself through the heart on a farm back of Ravens Rock, W. Va., and a few days later Oscar Perry Devore, alias Samuel Platt, of New London, O., hanged himself. No person connected them with the murder of the Schubert girl. Now, however, Sadie Devore, wife of Oscar Perry Devore, voluntarily makes an affidavit that her ausband came back from Wheeling about April 1st, and told her that he and another man had killed a girl on a hill back of Wheeling. He was constantly in fear of arrest, and the crime preyed on his mind. When he learned that Powell had ended his life he became despondent, and a few days later ended his own life.

## PEACE OVERTURES ARE ACCEPTABLE

**Japan and Russia Have Both Agreed to President Roosevelt's Proposal**

**AN ARMISTICE IS PROBABLE**

**Washington May Be Place for Peace Conference—Russia Favors Paris but Japan Has No Choice—Europe Praises Roosevelt.**

By Wire to The Morning Star.

Washington, June 10.—From an authoritative official source it is learned today that it has been practically determined that the plenipotentiaries of Japan and Russia for the determination of peace terms will hold their sessions in Washington. Inasmuch as the efforts which have been successful in the bringing of the belligerent governments into contact were initiated by President Roosevelt and further that most amicable relations exist between the United States and both Russia and Japan, this city is regarded as the "logical place" for the instituion of the practical peace negotiations between the warring governments.

Japan's acceptance reached the State Department several hours ahead of Russia's reply. Had the cablegram from Ambassador Meyer reached here before the Department closed there is a strong probability that both would have been made public to-day. No word regarding their character can be obtained beyond the important fact that both are acceptances and both express the gratitude of the respective governments for the President's offer of good will.

Washington, June 10.—Japan's acceptance of the President's "offer of good will' has reached the State Department in a cablegram from Minister Griscom. Russia's reply followed later but not in time to be deciphered tonight. It is expected both will be made public tomorrow.

**Japan's Reply.**

By Cable to The Morning Star.

Tokio, June 10.—6 P. M.—After acknowledging the receipt of President Roosevelt's letter, Minister of Foreign Affairs Komura, in a note to Mr. Griscom, the American minister says the imperial government has given the suggestion of President Roosevelt the serious consideration to which, coming from that important source it is justly entitled. Minister Komura's note says that Japan in the interest of the world as well as that of Japan, is willing to re-establish peace with Russia on terms and conditions that will fully guarantee the stability of the imperial government. Therefore Japan will, in response to the suggestions of President Roosevelt appoint plenipotentiaries to meet the plenipotentiaries of Russia at such time and place as may be found equally agreeable and convenient for the purpose of negotiations and concluding terms of peace directly and exclusively between the two belligerent powers.

**St. Petersburg Accepts.**

St. Petersburg, June 11.—12:35 A. M.—Paris is Russia's choice as the place for opening peace negotiations. If Japan insists upon Manchuria or Washington, Russia will doubtless agree, but Paris is preferred and the Emperor already is prepared to issue instructions to M. Nelidoff, the ambassador to France, to act as plenipotentiary to receive the Japanese conditions.

The Russian government has communicated to the administration at Washington, its consent to publication of Russia's reply to President Roosevelt's appeal, at the same time thanking the President warmly for the friendly and lofty spirit in which it was conceived.

The Associated Press is now able to give some additional interesting details of the extraordinray council presided over by the Emperor, which met recntly at Tsarskoe-Selo, and at which the practical, although not the final decision was taken to terminate the war if the conditions were not too onerous.

Besides the older male members of the imperial family all the ministers were present except M. Manukhin, the minister of Justice, General Fredericks, master of ceremonies, Prince Dolgoruki, Count Soisky, Baron Hesse and members of the imperial entourage, General Dragomiroff and Vice Admiral Doubasoff, were there as strategetic experts of the army and navy.

With Grand Dukes Vladimir and Alexander Michaelovich as leaders, all the members of the imperial family, except Nicholas Nicholaevitch, favored an attempt to conclude peace. Only General Sakahorff, the minister of war and General Lobko, from among the ministers, held out for the prosecution of the war.

There was a wide divergence of opinion as to whether Japan would attempt to impose impossible terms but the concensus of opinion was that Japan is too wise to desire now to humble its gigantic neighbor and force conditions which would forever rankle in the heart of Russia and only make peace an armed truce till the Russian Empire could make further preparations.

An enduring peace, it was agreed, was impossible if Japan tried to force upon Russia humiliating terms such as the surrender and disarmament of Vladivostok and the absolute limitation of Russia's naval strength in the Pacific.

A formal truce is expected to be proclaimed immediately the place of meeting of the plenipotentaries has been settled upon. The Associated Press hears on all sides nothing but the highest commendation of President Roosevelt's action and if it results in a satisfactory adjustment of terms it is believed that this act is bound to have tendency to restore the relations between the United States and Russia to something like the old friendly basis.

**An Armistice Expected.**

Washington, June 10.—Officials in Washington, who have been closely following the negotiations conducted by the President to bring about peace between Japan and Russia, expect that the next move will be a request for an armistice, as it is not thought probable that hostilities will continue after plenipotentiaries are named to arrange peace terms.

It is thought here that the United States government will be the medium of communication until some diplomatic channel is established between the belligerent nations.

**Paris Astonished.**

Paris, June 10.—The news that President Roosevelt has succeeded in bringing Russia and Japan together has proved a veritable coup de theatre to official and diplomatic quarters and the French public generally. Early in the day the text of the President's message excited widespread attention and comment, the prevailing view being that it was a fearless move on his part, which disregarded the usual restraints of diplomacy in order to attain the supreme end. There was wonderment shown when a late dispatch from Washington announced that both parties had accepted President Roosevelt's suggestion and that a meeting between them was assured.

The Debate and the Temps devote leaders to highly eulogistic comments on President Roosevelt's action.

**King Edward's Congratulations.**

London, June 10.—The news of the world understands that King Edward yesterday cabled to President Roosevelt congratulations on the reception of his efforts to secure peace.

**Germany's Praises.**

Berlin, June 11.—4:10 A. M.—The morning papers adopt a hopeful tone toward the latest peace move. They praise President Roosevelt's skill in choosing the psychological moment for making overtures to Tokio and St. Petersburg and say he showed great discretion in handling the matter.

**Italy Rejoicing.**

Rome, June 11.—The success that has attended President Roosevelt in seeking for peace is hailed with general rejoicing it being felt that the President thus benefits the whole world. Giornale di Italia, representing the conservative element, contains a statement evidently inspired to the effect that Russian defeats have changed the equilibrium of the powers.

## A HISTORIC EVENT IS COMMEMORATED

**Monument Unveiled at Bethel Yesterday—Marker Placed at Spot Where Henry G. Wyatt Fell.**

By Wire to The Morning Star.

Norfolk, Va., June 10.—The monument erected by the Bethel Monument Association marking at Bethel, in York county, Virginia, the place of the first conflict between the Federal and Confederate troops in the Civil War, was unveiled today in the presence of a large crowd of ex-Confederates from Virginia and North Carolina and others. Other addresses were made by Governor Montague, of Virginia, J. Bryan Grimes, Secretary of State of North Carolina, representing Governor Glenn of that State, who could not attend, and Rev. E. Wyatt, of Company A. first North Carolina Volunteers, who was the first Confedrate to lose his life in battle during the Civil War.

### SITUATION IN CHICAGO.

**Strikers Attack Negro Teamster—No Truce in Sight.**

By Wire to The Morning Star.

Chicago, June 10.—No proposals for peace came from either side to the teamsters' strike to-day and for the present the contest has settled down to a matter of endurance. John V. Farwell, Jr., in whose hands the employers have placed their case as far as peace negotiations are concerned, said this afternoon that no overtures would be made to the teamsters at any time hereafter. The employers are willing he said to meet the men at any time but no more proposals will be made to them.

The teamsters' joint council held a short meeting today at which terms of settlement were to be considered, but nothing was done.

John C. Driscol, formerly secretary of the Team Owners' Association who has been anxiously sought in connection with the suits brought against President Shea of the Teamsters' Union by George N. Thorne, who alleges criminal libel, returned today. President Shea declared that he was offered $10,000 by Thorne through Driscol to call a strike on Sears, Roebuck & Co. Driscol denied positively today that he had any knowledge of the affair. He will appear before the grand jury on Monday.

Samuel Rohlston, a paper hanger was shot and killed to-night by Frank Austin, a colored policeman who was guarding a wagon owned by Rothchild and Company. The wagon was passing Forty-third and State street when one of a crowd of men shouted at the driver. No violence was offered, but, according to the statements of witnesses, the colored policeman became excited and drawing his revolver fired directly into the crowd of men. The bullet struck a silver coin in Rohlston's vest pocket, and being deflected passed through his abdomen. The policeman was arrested.

### TEN YEARS FOR BIGELOW.

**Defaulting President of Milwaukee Bank Pleads Guilty.**

By Wire to The Morning Star.

Milwaukee, Wis., June 10.—Frank G. Bigelow, defaulting president of the First National Bank of Milwaukee, was sentenced in the Federal Court this afternoon to ten years at hard labor in the penitentiary at Fort Leavenworth, Kan. Bigelow pleaded guilty to an indictment of ten counts, returned by the Federal grand jury, charging violations of the National Bank law, and was sentenced by United States District Judge Quarles to a concurrent sentence of ten years dating from today.

The Federal grand jury this afternoon returned an indictment containing ten counts against Henry G. Goll, former assistant cashier of the First National Bank. The charges against Goll are similar to those against Frank G. Bigelow. Goll left his home early today and has not since been located.

### DISCRIMINATE AGAINST SOUTH.

**Compalint Against Atlantic Coast Line And Other Roads.**

By Wire to The Morning Star.

Washington, June 10.—Representatives of the Cincinnati Receivers Shippers' Assocation called at the Department of Justice today and filed with the Attorney General a complaint against the Illinois Central, Southern, Atlantic Coast Line, Norfolk and Western, Chesapeake and Ohio, Louisville and Nashville and practically all other railroads operating in that territory south of the Ohio and east of the Mississippi rivers. The complaint alleges that these roads have formed a combination in restraint of trade by jointly fixing freight rates and that these rates are higher than rates in the territory. The attorney General took the matter under advisement.

Norfolk, Va., June 10.—Joseph Richardson Cooms, aged 68 years a lieutenant in the Confederate army, who while a prisoner of war on Rock Island, Ill., in 1863, with seven other Confederate prisoners planned the Klu Klux Klan, died at his home in this city to-day. Mr. Cooms, a native of Maryland, was captured at Centreville during the Civil War and made a prisoner at Fort McHenry, Baltimore, from which prison he escaped, afterward being recaptured and sent to the military prison at Rock Island. He married Miss Ada Lee, a cousin of General Robert E. Lee and lived in Lynchburg, Va., up to a year ago.

## READY FOR WAR IF DECLARED

**Every Norwegian Will Answer the Call to Arms Against Sweden.**

**NORWAY IS CALM AND STERN**

**Not Expected That Sweden Will Declare War — People of Norway Want Republic and Hope for American Recognition.**

By Cable to The Morning Star.

Christiani, Norway, June 10.—A remarkable calm accompanied by stern determination, pervades Norway. Beyond the display of the new Norwegian flag from the buildings in Christiania and portraits of the provisional governors in the shop windows which attract small crowds, there are no visible signs here that Norway is in the throes of a revolution. Norwegian and Swedish merchants continue business uninterruptedly. The officials here express confidence that Sweden finally will accept the situation.

While, however, determination is evident everywhere intense anxiety is apparent, and the members of the cabinet are extremely busy in ogranizing the new government and providing for eventualities. Every Norwegian apparently is ready to anuswer a call to arms should the situation warrant it.

A member of the cabinet, who was interviewed by the Associated Press today said that the Norwegians never would recede from their present attitude. It was not expected, he said, that Sweden would declare war, but in that event he added, Norway would be prepared.

Regarding the danger of Russian and German aggression against the two countries in their separated state, the minister declared that the union was not strong enough to prevent aggression by these powers and that there is no reason to suppose they are more covetous now than before the separation. Norway depended on England to prevent such encroachment, he said, and Norway is perfectly willing to enter into a defensive alliance with Sweden and Denmark. The minister said that the popular feeling of the country favored a republic and expressed the hope that the United States would be the first to recognize the new government.

**Danger of Republic.**

Christiania, June 11.—12:40 A. M.—Reports received here of yesterday's conference at Stockholm between the officials of the government and the Riksdag are taken here as an indication that the Swedes are withdrawing from their position. It is recognized here that Sweden has three courses: First, to declare war; second, to agree to Norway's proposal; third, and intermediate course—not war but the refusal to recognize Norway's independence and the refusal to appoint a sovereign.

It has been feared that Sweden would take the last mentioned step and there by drive Norway to the extremity of establishing a republic, which, it is known, would not be welcome to Europe. The influence of a republic on the socialistic parties in Denmark and Sweden, however, it is pointed out, would not be likely to enhance the stability of monarchies, and for this reason King Oscar may consent to appoint his grandson, William, King of Norway. William who is a year younger than Gustavus Adolphus, is the Norwegian favorite, and it is thought that the brothers would rule the sister countries well.

## FRIGHTFUL ACCIDENT

**Automobile Goes Through Open Draw Bridge in Chicago—Three Persons Drowned.**

By Wire to The Morning Star.

Chicago, June 10.—Three persons were drowned and two others narrowly escaped a like fate to-night when an automobile in which the five were riding, plunged into the Chicago river through the open draw of the Rush street bridge. Those drowned were Jerome G. Kurtsman, chicago manager for a chemical company; Mrs. Jerome G. Hurtsman, and W. A. Hartley, manager for an automobile house.

The rescued were W. H. Hoops, Jr., manager for an automobile company, and Mrs. Jeremiah Runyon, New York city. Both Mrs. Runyon and Mr. Hoops were unconscious for half an hour after being taken from the water but are expected to recover.

The accident occurred at the north end of the bridge where there is an upward slope of 200 feet towards the edge of the draw. This slope is so steep that it has not been thought necessary to stretch chains across the roadway as is done at a number of other bridges, where the approaches are on the level.

The occupants of the automobile which dashed into the river were coming south in Rush streets close behind another machine, the chaffeur of which seeing that the draw was open slackened speed, and was coming to stop about 50 feet from the edge of the draw.

Hoops who was driving the rear machine thinking to pass ahead, pulled out to one side. Putting on extra power, Hoops machine shot toward the open draw at 20 miles an hour When close to the open draw Hoops realized his danger and throwing all his weight on the steering wheel, attempted to turn the machine to the left. The machine was too close to the draw, however.

The automobile turned slightly, and for a fraction of a second hung on the brink, the tire of the front wheel ripped off, the hub broke and the machine dropped into the river thirty feet below. As the machine slipped along the edge of the draw the women in the automobile screamed, and all of the occupants arose to their feet, but had no time in which to make another move before they were hung into the river, and after them, plunged the heavy machine.

Hoops and Mrs. Runyon fell clear of the machine and were taken unconscious from the river by sailors who were on a wharf near the bridge. Mrs. Runyon was taken to the Lexington Hotel in a hysterical condition. Neither Kurtzman, his wife, nor Hartley rose to the surafce, and it is thought that they were pinned down by the machine.

### REMARKABLE SHOOTING.

**Gunners on Battleship Kentucky Who Don't Miss.**

By Wire to the Morning Star.

New York, June 10.—All records for shooting with five inch guns were broken by four gunners of the first class battleship Kentucky on the Northern Drilling Grounds twenty miles outside Sandy Hook last Thursday. One gunner with fourteen shots a minute hit the target thirteen times. The second gunner fired thirteen times per minute and hit the target each time. Two other men had each twelve hits out of thirteen shots a minute.

The range was 1,600 yards and the target was 21 feet by 17 feet, consisting of a painted muslin screen and floated on a raft.

Rear Admiral Evans said that if the squadron had been firing at an enemy there would have been no enemy in half an hour.

Philadelphia, June 10.—Judge Ashman, in the Orphans' Court today, handed down a decree ordering that a citation be awarded compelling Anna Weightman Walker to show cause why an appeal from the decisoin of the register of wills admitting to probate the will of William Weightman, her father, should not be sustained and the decision set aside.

The petition filed today by Charles E D'Invilliers as guardian of Martha Rogers Weightman, sets forth among other things, that he expects to prove that at the time of the will, dated August 1, 1895, giving his entire estate to Anna M. Weightman Walker, Mr. Weightman was not of sound mind and testamentary capacity, and that the execution of the will was procured by the undue influence of Anna M. Weightman Walker and others.

HIGH GRADE CIGARS

are found oftener in advertisements than in show cases—you'll find the La Morna high grade in both particulars. It's easy to say this; but it's easier to prove by simply smoking one of the size, shape and color you prefer. Puffing one will pull for a box order, and buying that way will save you money. 5 cents gets you one; $2.00 a box of 50. So many critical smokers endorse the La Morna that you should join the procession.
